

NORD

Behind the Knobs we find Mathias Andersson & Jonas Pettersson, who both has many years of experience producing electronic music and touring around the globe with their projects, among others, "Ibojima", "Logic Bomb" and "Tranan". Recently the duo has decided to concentrate on their Progressive house / Techno project NORD. The result is stunning and most promising. The EP marks the second release on Iboga; the first one was the track "Around the world". The track "Hotel Boulevard" contains a massive & funky rawness with a seductive melodic finale, that really stays on your mind. The NORD remix of the Duca's "Juicy Noises" is also a great example of the quality at hand here. Very strong mix, that surely will be a deadly weapon for DJ's.
